Asbestos, crude and prepared:	...do .....	566	549	7,374	44,579	(NA)	44,542
Diatomite, prepared	...do .....	68	64	5,490	66	(NA)	44,542
Perlite	...do .....	554	554	27,952	4S2	(NA)	46,24,149
Other nonmetallic minerals:	...do .....	385	343	4,652	325	(NA)	2,727
	...do .....	412	391	6,146	(NA)	(NA)	48,23,364

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing data for individual companies. (NA) Not available. (X) Not applicable.

n.e.c. Not elsewhere classified.

For nonmetallic minerals (except fuels), unless otherwise noted, figures represent minerals "sold or used by producers".

Manganiferous iron ore is included with "iron ore, except manganiferous iron ore."

Represents direct shipping ore, treated ores to consumers, and agglomerates.

Represents manganiferous iron ore and for Minnesota ferruginous manganese ore.

Represents only ores mined in the Copper Ores, Lead and Zinc Ores, Lode Gold, and Silver Ores Industries.

Census quantity figures represent gross metal content; Bureau of Mines quantity figures represent recoverable metal content of mine production. Estimated by the Bureau of Mines from the quantity of mine production and an average price. For copper, lead, and zinc, represents the weighted average unit price of domestic refined metals delivered to purchasers. For gold, represents the price under authority of the Gold Reserve Act of January 31, 1944. For silver, represents the Treasury buying price for newly mined silver.

Represents copper ore sold or treated.

Represents lead ore, zinc ore, lead-zinc ore; and copper-lead, copper-zinc, and copper-lead-zinc ores.

Represents gold ore and gold-silver ore produced.

Represents metal contained in gold ore and gold-silver ore produced less mill bullion produced.

Represents production.

Represents silver ore produced.

↑ Represents concentrates only.  
↓ Represents metal contained in silver ore.
